TallShipBlocks

for sailing

TallShip Blocks “Standard” are made from ash-wood in a traditional design and construction. Bindings made of polished strong stainless steel (AISI 316). The sheaves are made of high-strength white Ertacetal. The stainless steel axle is secured against turning and can be easily removed for dismantling the blocks for maintenance and inspection. The glued and screwed wooden shells are covered with Tung oil and then 3x varnished with a special glossy varnish. We can make all types of blocks, also to custom-specifications, like fiddle-blocks, swivel-blocks, strop-blocks, full stainless special purpose blocks, swivel and strop blocks are also available.

The advantages of the TallShipBlocks:

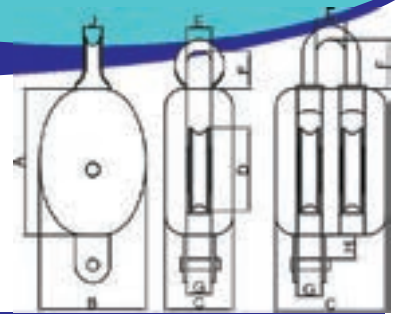

- ✓ traditional design,
- ✓ strong construction,
- ✓ varnish for difficult marine conditions,
- ✓ high strength sheaves,
- ✓ bindings are made of strong stainless steel (AISI316),
- ✓ polished bindings

TallShipBlocks

Type:

TallShipBlocks single sheaves
